# Pre-K Awesome News

## This Week

We had an awesome week learning more about the letters 'O' and 'P'. This week we read Olive the Octopus's Day of Juggling and Pig's Picnic. We also had fun singing and laughing along with the 'O' and 'P' Storybots. This week we also learned about the number 20.

This week we focused on the lifecycle of a plant. We learned that plants start out as a seed, that then grows roots down into the soil. After the roots grow a shoot grows up making a seedling that will turn into a full-grown plant with a stem, leaves and flower. During our craft time we had fun using toilet paper tubes, tissue paper and paint to create our own beautiful flower. Throughout the week we also made a house with a picket fence and real grass that will grow! During our circle time, we worked together to repot plants and had the opportunity to see the roots, stems, leaves and flowers. We also planted a tomato, mint, and strawberry plant!

During our Kiddosizing class with Miss Erika we ventured outside to hop through an obstacle course, practice our amazing limbo skills, and made a pizza using our rhythm sticks.

During our center time we had fun playing in our jungle center, building villages with our fairy garden, reading books in the library, and cooking some delicious food in the kitchen.

## Looking Ahead

May 27<sup>th</sup>  
Memorial Day  
No School  
June 14<sup>th</sup>  
Father's Day  
2pm-2:45pm

## Next Week

Next week we will be learning about bees and jungle animals.
