

November 4th-8th

Pre-K 4 Awesome News!

This Week

We had a terrific week learning about the letter 'T'. This week we read My 't' Sound Box, sorted pictures that began with the letter 'T', sang along to our 'T' Poem, and rocked out with the StoryBots.

This week we began talking about all 4 seasons; winter, spring, summer and fall. Throughout the week we dedicated a day to each season. During our craft time we created a "season tree" where we added different craft materials to a tree to represent each of the seasons. For winter we used cotton balls, spring had beautiful flowers, summer was a glittery leafy tree and for fall we created leaves using different autumn colors. The kiddos loved working on this project all week and seeing our tree transform for each season. During circle time, we read a lot of stories about the seasons and the weather that happens in them. Some of our favorite stories were A Snowy Day, A Windy Day, A Rainy Day, and A Sunny Day. For a fun gross motor activity, we ventured out to the parking lot and ran around sorting pictures into the correct seasons!

This week we introduced many new centers for November. The kiddos loved learning about nature in our sensory table, different woodland animals in our nature center, building a camp site, and baking Thanksgiving pies in our kitchen! The kiddos were so excited to see how creative they could be in each of the centers.

On Friday we learned about Veterans Day. The kiddos had fun learning about how Veterans keep us safe. As a "Thank You" to the Veterans everyone colored a picture that will be delivered to Veterans in Western NY.

Looking Ahead

November 11th
Veterans Day
No School

November 27th
No After School

November 28th
Thanksgiving
No School

November 29th
No School

Next Week

We will be learning about bears and fall.
