

September 11th-15th

Mr. Ed's Awesome News!

This Week

We had a great week exploring numbers and letters. Throughout the week we read Chicka Chicka Boom Boom and Chicka Chicka 123. In each of the stories we practiced identifying the letters and numbers as they climbed up the trees. We had a blast singing along to the songs that went with each book and playing with our felt trees, letters, and numbers as we practiced retelling the story.

Throughout the week we also read 100 Rubber Ducks by Eric Carle. In the story the huge box of ducks falls off a boat and the little ducks travel around the world seeing different creatures. During our craft time we had the chance to design our own unique duck using paint sticks, then in center time we played with 100 rubber ducks in our water table that were all different styles.

This week we also learned about weather. We read the story Misty and Cloud that taught us about how the weather works together. During circle time each day we will select a friend to be the weather person. They will go to the window to check the weather and then report back to their friends at the carpet. During our craft time we designed a paper plate weather spinner to be used at home to record the weather!

During center time, the kiddos had fun playing in the blocks, pretending to be teachers in our teacher center, reading books in the library with Miss Ilia and Charlotte, and explore all our light up toys during lights out centers.

Looking Ahead

Color Week
September
18th-22nd

September 29th
Picture Day

Next Week

Next week
we will be
learning
about shapes
and colors.
