

June 3rd-7th

Pre-K Awesome News

This Week

We had a great week learning more about the letters 'S' and 'T'. This week we read the stories Seal's Silly Sandwich and When Tilly Turtle Came to Tea. We had a blast laughing and singing along to the StoryBots songs for each of the letters.

This week we began talking about outer space. Throughout the week we learned about our solar system and everything that is in it. We learned about the Sun, Earth and Moon. During our craft time we had fun using different techniques to create a model of a Sun, Earth and Moon. This week we also learned about stars. We learned that sometimes stars can be connected with an imaginary line that creates a constellation (or a picture made of stars.) We had fun using our creativity and imagination to connect star stickers into our own unique constellations.

Throughout the week we had fun playing outside on the playground with our parachute and rubber bands. We even had the chance to play duck duck goose. During our center time we explored in our alien world sensory bin, blasted off in our space station, built with blocks and read stories in the library.

Looking Ahead

June 14th

Father's Day
2pm-2:45pm

June 18th

No After School

June 19th

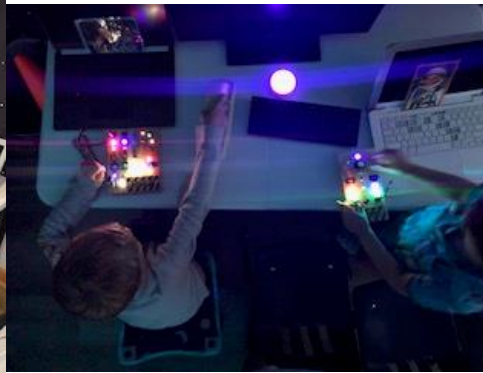

Juneteenth
No School

June 20th

Graduation
No After School

June 21st

Carnival
10:30am-12:30pm
No School

Next Week

Next week we will be learning about space.
